

SENIOR CIVIL ENGINEER TAURANGA

Maven is a market leader in Land Development, Planning, Survey and Civil Engineering with a wealth of industry knowledge and expertise. Due to growth and increased volume of work, we are looking to take on a Senior Civil Engineer in our Tauranga office.

You'll be well rehearsed in infrastructure design, roading, water, stormwater and wastewater. The type of projects is wide ranging from large residential developments, to commercial sites and large-scale engineering projects. We are looking for someone who can work in a dynamic and energetic environment.

WHAT WE ARE LOOKING FOR:

- 7+ years' Civil Engineering experience
- Experience in project managing medium to large land development projects (start to end)
- Advanced user in AutoCAD Civil3D
- Fully understand construction contracts specifically NZS3910
- Strong English communication skills, both written and verbal
- Ability to manage time effectively and take control of your own workload and projects
- Collaborative team player and leader

WHAT WE OFFER:

- Competitive remuneration based on skills and experience;
- Great work culture and the opportunity to work on a variety of projects and skill development opportunities within the various aspects of land development.
- Opportunity for ongoing learning and career development.

Due to Covid-19 border restrictions, only NZ permanent residents and citizens will be considered for this role.

If you are looking to progress your career with the opportunity to up skill, then contact Catherine for a confidential chat or send expressions of interest with a CV to catherinel@maven.co.nz
